

Vasyl Kovenko *Frontend Developer | Full Stack*

✉ ortoswt@gmail.com  github.com/Kowenjko  https://portfolio-kovenko.vercel.app

Profile

Frontend Developer with 3+ years of commercial experience specializing in **Vue** and **Nuxt**. Skilled in building modern, fast, and scalable web applications with complex API integrations.

Possess working knowledge of **React/Next** and backend technologies (**Python/FastAPI**), enabling effective cross-functional communication and collaboration. Full-stack understanding with the ability to work across both frontend and backend layers.

Results-oriented, responsible, and continuously improving professional skills.

Professional Experience

ABVV.Group (Frontend Developer), 2023 - Present (Ukraine)

Developed and maintained e-commerce platforms and internal tools using **Nuxt 3** and **Vue 3**.

Key Projects:

- **StoreInUA**: Built a scalable online electronics store, implementing custom UI/UX solutions and integrating complex APIs.
- **PM-Tehko**: Developed a system for automated price list processing, optimizing internal workflows.
- **Bidnyazhka**: Created a travel club platform with a focus on user experience.

Collaborated with the team via Git, Jira, and Trello to ensure high-quality code delivery.

Nexoft UG (Frontend Developer), 2021 - 2023 (Germany | Canada)

- Built and customized e-commerce solutions using **Shopify**, **Shopware**, and **Nuxt 3**.
- Integrated third-party services (**Firebase**, **JWT**, **OpenAPI**) and developed email marketing systems.
- Implemented responsive UIs using **Tailwind CSS**, **Vuetify**, and **Pinia** for state management.
- Maintained clear communication with clients and the team via **Jira**, **Slack**, and **ClickUp**.

Educational & Volunteer Projects

- **Python Online Marathon**, 2021 (*SoftServe IT Academy*). Collaborated on team projects, handling task execution using JavaScript, Python, Git, and Scrum methodology.
- **"Kids Police" Chatbot**, 2021 (*Rivne Police Department*): Contributed to website parsing and database integration (PostgreSQL) to support a public service chatbot, working in a volunteer team.

Skills

Frontend: JavaScript (ES6+), Vue 3, Nuxt 3, React, Next

State Management: Pinia, Redux

Backend & APIs: REST API, JWT, Firebase, Appwrite, Convex, Python (Django, FastAPI)

Styling & UI: Tailwind CSS, Vuetify, Bootstrap, Material UI
